SPED Plan Management & State Reporting System Updates

November 5, 2019

COLORADO
CHARTER SCHOOL INSTITUTE

Background

All CSI schools use a **SIS** for maintaining student data and general state reporting:

- Infinite Campus
- PowerSchool

All CSI schools use a **plan management system** for student plans and SPED state reporting:

- Infinite Campus
- Alpine Achievement
- Enrich

If your school utilizes Infinite Campus for <u>all</u> state reporting (including SPED), then the coming changes will not impact you.

Alpine Achievement Updates

- Merged with Illuminate

- **Alpine will continue as is through 2020-2021, <u>including</u> SPED state reporting**

- Alpine Migrations landing page will be created in the coming weeks which will have demos of eduCLIMBER and Achievement Dashboard and FAQ

- As of Oct 2019, Illuminate is not planning to build SPED State Reporting into the other Illuminate products

What does this mean for current Alpine users?

- Your school will need to identify/migrate to another system for the 2021-2022 school year.
- Impact varies based on the extent to which you currently use Alpine (assessment data, plan management, SPED state reporting)

What are alternative options for plan management & SPED state reporting?

Currently:

- Infinite Campus
- Enrich

Infinite Campus

- Plan management and SPED state reporting are standard features within IC.

- If you are already using IC, you can access Campus Community trainings to learn more about both functionalities.

Enrich

- Current state system
- Districts/CSI can access SPED portion at no cost
- Districts/CSI can access additional features (ELD, ALP, READ plan management) for additional costs
- Current Enrich contract with CDE ends June 30, 2021

State-Contracted Vendor

- CDE to identify selected vendor by late Spring 2020

Timeline

Winter 2019

CSI-coordinated vendor demos and calls for schools to consider options

May 2020

CDE will select vendor from RFP process to replace existing Enrich contract

2020-2021

Schools should determine plan management and SPED state reporting: IC, Enrich, etc. for upcoming school year and finalize contract, training, timeline

June 2021

End of existing CDE Enrich contract; new vendor contract being implemented

End of Alpine Achievement plan management and state reporting

2021-2022

School implementation of plan management / SPED state reporting system (IC, Enrich, or state-approved vendor)

Outstanding Questions

- Will Illuminate offer a plan management system and/or SPED state reporting component that is comparable to Alpine Achievement?

- Will CDE continue to use Enrich after 2020-2021?

Training Timeline

System	Date/Time
Enrich SPED Demo	11/8 from 9-10:30
Enrich Additional Features Demo	11/8 from 1-3:30
Alpine Achievement Updates	TBD

Questions?
