

READ 4-12th Cohort

Separate file- students who left 3rd grade with a READ plan and have not been indicated as exiting their plan in prior year(s).

Pre-populated file with only ONE field to update

Do not copy paste into main READ Collection file

I will notify all schools with a READ cohort file. Cohort files will be available in FileZilla

READ 4th-12th Cohort

When does a student exit the cohort?

- Once a student has reached reading competency (determined locally) they are removed from their READ plan and will be coded as READ plan = 0 (No) which will remove them from the cohort group

Do not **add** students into the cohort.

- ONLY the READ plan field is updated

How has Covid-19 impacted these students?

- Since there was no data collection in spring of 2019-20, the cohort will pull students reported in the 2018-19 school year and the 2020-2021 school year. The file will be missing 5th grade
