There is a critical staff shortage across the nation in the area of Special Education and competition for quality staff among districts and Charters has increased exponentially. CSI schools are especially vulnerable as each authorized school is interpedently responsible for hiring and retaining quality staff. Leaders across CSI schools often request guidance from the Charter School Institute (CSI) in their efforts to recruit, develop, and retain qualified special education personnel. In response to this common request for support, this handbook was developed to provide foundational information every school leader should know to successfully staff and oversee special education personnel and programs. The handbook covers a variety of topics including, but not limited to, licensing requirements, sources for recruitment, the hiring process, performance evaluation, and tips for enhancing staff retention.

**Special Education**

The Institute operates as the administrative unit (AU) with authority for the provision of delivering services to exceptional students and legal compliance for students with disabilities and other exceptional students in its individual charter schools. Each authorized Charter School enters a contract to take direction from and work collaboratively with the Institute with regard to the provision of these services. In addition, the school must develop and implement the Special Education Program Plan that is submitted to, and approved by, CSI at the inception of the school or as subsequently modified in accordance with CSI's policy for approving such modifications including, following and implementing the procedures laid out in the *CSI Special Education Manual*. Additionally, the school may not establish nor carry out any support services, policies or practices that conflict with the Program Plan or the *CSI Special Education Manual*.

Because the Institute remains responsible for compliance, the Institute’s position shall control if a school and the Institute disagree as to the correct interpretation or application of a statute or regulation concerning the education of exceptional students. In instances where CSI takes on the responsibility for tasks that would otherwise be carried out by the Charter School, CSI may retain commensurate funds. Such circumstances are expected to be highly unusual. A written agreement specifying the services to be provided and their cost will be executed, which agreement shall constitute an amendment to the Charter Contract, at the time of any such unusual intervention. In the charter school contract with the Charter School Institute, each school agrees to comply with the Institute’s Board policies and regulations and the requirements of federal and state law concerning exceptional children including but not limited to, the requirements of the Individuals with Disabilities Act (20 U.S.C. § 1401 et seq.), Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794), the Exceptional Children’s Educational Act (C.R.S. § 22-20-101, et seq. “ECEA”), *Title III(A): Title III(A) of the No Child Left Behind Act of 2001 (ELA)* and the Americans with Disabilities Act (42 U.S.C. § 12101 et seq.).
*CSI Special Education Manual means the monograph titled CSI Special Education Manual, published by CSI and made available to its charter schools, as it may be amended from time to time, or its replacement (Special Education Comprehensive Manual:)

SPED Funding

Although schools are responsible for hiring and funding personnel, the Institute does allocate state (ECEA) and federal (IDEA) special education funding to each Charter School in accordance with CSI’s established practice—consistent with C.R.S. § 22-30.5-513.5 and other applicable law—including establishing a baseline allocation, deducting CSI’s administrative costs, and dividing that number by the total number of eligible students. Federal (IDEA) funds are dispersed through a monthly RFF process and State (ECEA) funds are dispersed each fall. CSI allocates the following base amounts per special education student as reported from the previous year’s December count: ECEA: $1,279 & IDEA: $1,671. As a rule, schools should budget $400 per student (all students) enrolled to fund a basic special education program. Note that CSI’s allocation of IDEA/ECEA dollars will not cover all of a school’s special education budget and that each CSI school should expect to use general education dollars to supplement to SPED budget which can be upwards of 30%-40%. See chart below for a budget example.

<table>
<thead>
<tr>
<th>School Size: 500 Students Enrolled: SPED Pop. 50 (10%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>$400 pp Budget:</td>
</tr>
<tr>

</tr>
<tr>
<td>Total: $235,000</td>
</tr>
<tr>
<td>CSI SPED Allocation: $150,000 (@ $3,000e pp SPED student)</td>
</tr>
<tr>
<td>Deficit: - $85,000 (Use General Funds)*</td>
</tr>
<tr>
<td>*Districts are typically spending 35%-40%</td>
</tr>
</tbody>
</table>

SPED Staffing

CSI is responsible for providing oversight of the schools’ obligation for staffing highly qualified and appropriately certified related service providers, such as exceptional students’ coordinators, nurses, counselors, psychologists, speech/language therapists, vision specialists, audiologists, interpreters, occupational and physical therapists, etc. These positions are staffed based on needs identified in student IEPs. Also, each charter school is assigned a CDE licensed Special Education Coordinator that is employed by CSI. Each charter school must develop and consistently implement a process to ensure that all its special education employees and contracted personnel are appropriately credentialed and licensed. Hiring a therapist through a private agency does not negate the responsibility of the charter school to ensure that those individuals are properly qualified.
<table>
<thead>
<tr>
<th>Service Provider Type</th>
<th>Required: contract is current &amp; active</th>
<th>Optional: based on IEP (Must have on standby access, i.e., contract agreements)</th>
</tr>
</thead>
<tbody>

<td></td>
</tr>
</tbody>
</table>

*For elementary Schools: Strongly recommended to have OT on current contract and High Schools may be optional

** Counselors are strongly recommended for schools and do not take the place of all the Psychologist role in SPED, i.e., assessments

***Special Education paras do not need to hold a Special Education CDE provider license, but does need training and supervision

Although charter schools may obtain state and district waivers for the licensure of regular education personnel, this is not the case for special education staff (contact CDE’s Educator Licensing unit at educator.licensing@cde.state.co.us for questions about appropriate licensure and endorsements for special education teachers). Each CSI school must complete and send to CSI required HR information* validating the credentials. All special education staff including related service providers must be hired upon the start of the 1st day of school, or by August 1st, whichever comes first. By April 1st of each year, schools must inform CSI if there are plans to change the system of which special education staff is hired, such as moving from an individual contractor system to contracting with a BOCES.

*All CSI schools are required to submit to CSI a list of all special education staff as well as all required HR information needed to complete State reports and submission. Any changes in staff must be sent to CSI using the Vacant Personnel Action Form https://www.surveymonkey.com/r/VPAP  Special Education Special Service Providers must hold a current License and/or Endorsement in their area (IDEA & ECEA).
Special Education Coordinators

The Special Education Coordinator of the Charter School is a required position, mandated as noted in the CSI School Contract (Section 7.16iii) and noted in the special education MOU by paragraph 2(a)(9), and shall attend to all school-level administrative, compliance, and programmatic tasks with regard to special education, and shall be primarily responsible for ensuring (1) that the special education program of the Charter School is effectively and lawfully carried out and (2) that the needs of students with disabilities and at risk for disabilities are met. The Special Education Coordinator is a qualified CDE Special Education Licensed individual who acts as the special education designee to the CSI special education director and regularly communicates reports to the CSI special education director. Currently, CSI has 4 Special Education coordinators assigned by region to CSI schools. In addition, many CSI schools have elected to employ an additional school level Special Education Coordinator or Student Services Coordinator and these folks work closely with their assigned CSI coordinator.

Distinction between school-level Special Education/Student Services Coordinators and CSI Special Education Coordinators

In addition to the CSI Special Education Coordinator, many charter schools elect to employ a multi-purpose employee who may serve as special education provider as well as the building level Exceptional Students Services (ESS) Coordinator (or related title such as ES Team Leader, SPED Coordinator or Department Head, etc.). Depending on the needs of a particular charter school, this individual may be responsible for overseeing the schools’ special education, 504, GT, ELL and other programs. These individuals work in close communication with the CSI Special Education Coordinator to ensure that the school is in compliance with all Federal, State and CSI requirements for special education. A charter school may elect to employ a school level Coordinator, Team Leader or Department Head who also meets licensing and qualification requirements as a special education administrator.
Performance Evaluation

Rubrics

School administrators are familiar with the State Model Evaluation System for classroom teachers; however, most CSI schools have waivers from the State model and have created their own individualized teacher evaluation system. Often, these individualized systems are not easily applied to special education teachers and specialized service professionals. As a resource, CDE has comprehensive bank of evaluation rubrics for special education personnel and can be used to create a customized evaluation system:
http://www.cde.state.co.us/educatoreffectiveness

Links for specific providers:
- Rubric for audiologists
- Rubric for occupational therapists
- Rubric for physical therapists
- Rubric for school counselors
- Rubric for school nurses
- Rubric for school orientation and mobility specialists
- Rubric for school psychologists
- Rubric for school social workers
- Rubric for speech language pathologists
- Teacher Rubric

Special Education Staff to Student Ratio Recommendations

Please note that these guidelines are based on typical caseload representation by CSI Charter Schools and include extraneous time spent conducting IEP meetings, writing Plans, participating in RTI, progress monitoring, etc. Thus, it is important to not only align the FTE of staff with what is noted for hours on an IEP, but also note that in cases of smaller schools that do not reach the minimum caseload size as presented in the table below, you will need to allot time for the special education provider to participate in extraneous duties.

<table>
<thead>
<tr>
<th>Position</th>
<th>Staff: Student Ratio</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mild-Moderate Needs Teacher</td>
<td>1:20 Sped Ratio</td>
<td>Compare ratio of moderate needs teachers to moderate needs students and also compare ratio of gen. ed students sped teachers due to RTI for example, students requiring &lt;7.5 hours per week or spending &gt;80% of their day in general education. Look at amount of hours on IEP to align with recommended Ratios. Allow time for</td>
</tr>
<tr>
<td></td>
<td>(Secondary)*</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1:200 Gen Ed. Ratio</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1:15 (Elementary)*</td>
<td></td>
</tr>
<tr>
<td>Position</td>
<td>FTE/Per Period</td>
<td>Notes</td>
</tr>
<tr>
<td>---------------------------------------</td>
<td>-------------------------</td>
<td>------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Speech Language Pathologist</td>
<td>1:40-50</td>
<td>Recommend 1:40, numbers can be adjusted upward to some degree if an SLP-A is also employed (do not double caseload). Compare to size of school and identified hours on IEP</td>
</tr>
</tbody>
</table>
| School Psychologist/Counselor         | 1.0 FTE                 | 1 mental health FTE per elementary school, 1.2 at MS, 1.8 at HS  
**Consider:**  
1. Size of schools  
2. Type of behavioral health model, family engagement (i.e., SW), identified needs on IEP:  
Psychologist provides IEP Eligibility testing (both can provide counseling on IEP) |
| CDE Licensed School Nurse             | Contract as needed      | Contract as needed per school with judgment based on size/need and delegation to Health Tech. |
| Health Tech                           | .5-1.0 FTE              | Based on size/need of school and delegation by Nurse with a recommended minimum .5 FTE per School |
| OT/PT                                 | 1:40                    | If have COTA/PTA the numbers can be adjusted up/down                   |
| Early Childhood SpEd Teacher          | 1:30                    | 1 licensed ECSE teacher for 1AM and 1PM sections of preschool          |

Consideration of multiple roles and alignment with SPED funds i.e., 504, GT, RtI, MTSS, etc.
Employment

Staff Recruitment and Retention Resources

CSI has resources to support schools with staff recruitment and retention that occur on many levels. The resources are summarized here:

Relay Graduate School of Education: CSI provides tuition support to current employees at CSI schools to participate in a Special Education Leadership program or Special Education teacher endorsement program. Relay offers an Inclusive Schools Leadership Academy through Graduation School of Education program and an endorsement in Teaching Special Education. Interested CSI school staff can contact the CSI Special Education Director or CSI Student Services Director for more information on how to apply.

Mini Grants: CSI offers financial awards to support specific situations where a school is serving a high needs student that was unexpected or unplanned and there are budgetary constraints for the current year. The CSI Coordinators are the point contact for determining eligibility and applying for the award with the CSI Special Education director making the final approval. These are one-time awards are funded specifically with special education dollars and must be used by the end of the fiscal year.

CSI School Budget Allocation: CSI schools must annually budget 1-3% for additional Special Education Emergency Set Aside Funds to prepare for unforeseen circumstances. All emergency funds used in a current year must be replenished for the following year budget.

Temporary Educator Endorsement (TEE): The Colorado Department of Education Licensing Unit offers a process for non-CDE licensed special education providers to become employed as a service provider while enrolled in a university or approved education program. The TEE must be approved by the CSI Special Education director and interested individuals can contact the CSI Coordinator and/or Special Education Director for more information.

Teach Colorado (Alternative teaching license): There are several alternative pathways and programs that allow providers to begin working directly with students in CSI schools. This resource aligns directly with the TEE process mentioned above.
Staffing Innovation and Strategies

Strategies to address current SPED Provider vacancies:

1. Temporarily reallocate staff to address student IEP needs.
   a. Students must continue to be served in alignment with IEP, but the location of services may change i.e., para educator provides hours.
2. Assign staff flexibility.
   a. move part-time staff to full-time; reassign 1:1 paraeducators as possible
3. Consider temporarily hiring remote instructors or temporarily move to remote instruction for all students, while continuing to provide in-person instruction for those students with IEPs that require in person instruction.

Service Delivery Options

Work with CSI special education director and/or coordinator to explore and brainstorm options:

1. Have other staff temporarily provide specially designed instruction.
2. Consider General education teachers and paraeducators support the delivery of specially designed instruction.
3. Consider SLP, OT, and PT assistants deliver instruction under the direction of the SPED Teacher.
4. Utilize Remote related service providers provide related services.
5. Temporarily increase group sizes or combining groups for small group instruction.
6. Temporarily provide instruction in small groups for students that received one-on-one instruction for portions of the day to conserve staff, when appropriate within the IEP and/or placement based on a student’s skills and needs.
7. Determine if substitute teachers could be assigned to a school or classroom for a long-term sub position.
8. Review providers caseloads and potentially reassigning across staff
9. Evaluate the current practices of assigning and fading paraeducators based on individual student level data.

Strategic Planning

Consider:

1. Recruiting parents to train as paraeducators and substitute teachers.
2. Supporting paraeducators or other staff to gain the education, training, and credentials to be special education teachers or substitutes.
3. Supporting staff to enroll in a state approved program and meet the requirements for conditional certification while working towards endorsement completion (see TEE).
4. Creating a Memorandum of Understand (MOU) for staff retention in exchange for tuition assistance (see Relay Program).
5. Hosting job fairs and reducing job application barriers. Allow applicants to fill out applications at a job fair with support from staff and then interview immediately.

6. Consider alternative methods for compensation, offer hiring and retention bonuses, cash incentives for teachers and other staff, or to reduce barriers for staff (pay for praxis tests, study guides, fingerprinting, etc.).

7. Explore ways to increase the availability of qualified adults and personnel to support educators, students, and staff i.e., partner with institutions of higher education, community-based organizations, nonprofit organizations, and businesses to provide additional supports to educators and students.

Job Descriptions and Personnel Qualifications

A comprehensive list of personnel qualifications required for CDE licensure can be found at: www.cde.state.co.us/cdeprof/endorsementrequirements
DEPARTMENT: ___________________
REPORTS TO: __________________

JOB SUMMARY
The Early Childhood Special Education (ECSE) Teacher is responsible for the provision of evidence based instructional practices and supports for young children with special needs. In addition, the ECSE is responsible for screening/assessment, IEP development, and progress monitoring; The ECSE teacher works closely with parents by providing parent education and support, linkages with community resources and case management. The ECSE teacher supervises and supports paraprofessionals and works with an inter-disciplinary team-providing curriculum-embedded educational services for children with disabilities within inclusive preschool classrooms.

EXPERIENCE
• Prefer prior experience as a special education teacher providing instruction in an early childhood setting

EDUCATION AND LICENSURE
• Holds a CDE-issued Early Childhood Special Education or Early Childhood Special Education Specialist License

ESSENTIAL DUTIES AND ROLE-SPECIFIC RESPONSIBILITIES
Essential duties of this position include the following. Employees in this position perform some or all of the following tasks. Other duties may be assigned.
• Provide classroom instruction within an inclusive preschool setting as well as specialized individual and group instruction to students with a range of developmental, vision, hearing, physical, communicative, social and/or behavioral challenges
• Employs various research-based teaching techniques, methods and principles of learning to enable students to meet their IEP goals.
• Administer and interpret a variety of standardized and non-standardized academic assessments to assist with special education and 504 eligibility determinations according to Charter School Institute, Federal, and State regulations and procedures
• Assist team members in developing and implementing IEPs as appropriate
• Assist with the implementation and monitoring of behavior intervention plans
• Observe students in classroom and unstructured settings as needed to conduct evaluations, monitor student interventions and to provide staff consultation
• Provide consultation to early childhood teachers regarding classroom adaptations, instructional modifications, assistive technology, behavior modification plans and other similar instructional interventions to meet the needs of students with disabilities
• Direct the services of paraprofessionals and coach them to implement classroom adaptations, behavior plans and instructional services as per IEPs
ADDITIONAL RESPONSIBILITIES

- Manage caseload of students with IEPs by tracking and following all IEP timelines, sending parents notices of meetings and securing consents, setting IEP meeting dates with all team members
- Complete assessments, evaluation reports, behavior plans and progress reports within expected timelines
- Establish and maintain student control and discipline in the classroom, school premises or during school activities
- Employ and implement a classroom structure and consistency to foster student development,
- Collaborate and consult with educational professionals and parents regarding the needs of students
- Maintain direct service logs for all students on caseload
- Serve as the Special Education Director Designee for IEP meetings when requested
- Enter all academic assessment, progress monitoring data, evaluation reports, behavior plans, and other relevant information into the school’s electronic IEP/504 system as appropriate

KNOWLEDGE, SKILLS & ABILITIES

- Familiarity with Federal, State and CSI guidelines for special education and 504
- Expertise with a wide range of standardized and informal assessment procedures including progress monitoring tools
- Expertise with research-based early childhood instructional programs and strategies
- Knowledge of research-based academic and behavioral interventions
- Ability to effectively communicate effectively in oral and written form
- Ability to work effectively and cooperatively with team members

PHYSICAL DEMANDS

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions. While performing the duties of this job, the employee is regularly required to talk or hear. The employee is frequently required to stand, walk; climb stairs, sit; use hands for fine manipulation, handle or feel and reach with hands and arms using a keyboard and video display terminal. The employee is occasionally required to stoop, kneel, crouch or crawl. The employee may be asked to intervene with students. Specific vision abilities required by this job include close vision.

WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions. The work environment is a school setting. The noise level in the work environment is usually moderate.

NOTE

This is not necessarily an exhaustive or all-inclusive list of responsibilities, skills, duties, requirements, efforts, functions or working conditions associated with the job. This job description is not a contract of employment or a promise or guarantee of any specific terms or
conditions of employment. The school may add to, modify or delete any aspect of this job (or the position itself) at any time as it deems advisable.
DEPARTMENT: ______________________
REPORTS TO: ______________________

JOB SUMMARY
The Licensed Special Education Teacher develops and provides specialized instruction to meet the unique needs of students with disabilities; Evaluates and assesses student progress against instructional objectives; follows State mandated due process procedures and functions as IEP Manager to assigned students.

EXPERIENCE
- Prefer prior experience as a special education teacher in a K-12 public school setting

EDUCATION AND LICENSURE
- Requires completion of an approved program for the preparation of special education generalists from a regionally accredited college or university or 24 hours as determine by the CDE
- Requires passing scores on both Elementary Education (PLACE 01 or Praxis #5018 or Praxis #5001 with passing scores on all subtests) and Special Education Generalist (PLACE 20 or Praxis #5354 content exams
- Holds a CDE-issued Special Education Generalist or Special Education Specialist license

ESSENTIAL DUTIES AND ROLE-SPECIFIC RESPONSIBILITIES
Essential duties of this position include the following. Employees in this position perform some or all of the following tasks. Other duties may be assigned.
- Provide specialized individual and group instruction to students with a range of academic, vision, hearing, physical, communicative, social, emotional and/or behavioral challenges
- Employs various research-based teaching techniques, methods and principles of learning to enable students to meet their IEP goals.
- Administer and interpret a variety of standardized and non-standardized academic assessments to assist with special education and 504 eligibility determinations according to Charter School Institute, Federal, and State regulations and procedures
- Assist team members in developing and implementing IEPs as appropriate
- Assist with conducting functional behavior assessments and developing behavior intervention plans with the assistance other team members
- Assist with the implementation and monitoring of behavior intervention plans
- Observe students in classroom and unstructured settings as needed to conduct evaluations, monitor student interventions and to provide staff consultation
- Provide consultation to classroom teachers regarding classroom adaptations, instructional modifications, assistive technology, behavior modification plans and other similar instructional interventions to meet the needs of students with disabilities
- Participate in the school’s MTSS/RtI processes to design, implement, and monitor student response to research-based interventions for targeted academic, social,
emotional and behavioral needs

- Direct the services of educational assistants and coach them to implement accommodations, behavior plans and instructional services as per IEPs
- Implement a comprehensive transition program that includes instruction in transition skills, ongoing assessment and meaningful transition activities for secondary students
- Coordinate community agencies and resources to assist in meeting transition goals of secondary students

ADDITIONAL RESPONSIBILITIES

- Manage caseload of students with IEPs by tracking and following all IEP timelines, sending parents notices of meetings and securing consents, setting IEP meeting dates with all team members
- Complete assessments, evaluation reports, behavior plans and progress reports within expected timelines
- Establish and maintain student control and discipline in the classroom, school premises or during school activities
- Employ and implement a classroom structure and consistency to encourage student responsibility, cooperation and mutual respect consistent with district policies and procedures
- Collaborate and consult with educational professionals and community service providers (i.e., social services, public health, medical providers etc.) regarding the needs of students
- Maintain direct service logs for all students on caseload
- Thoroughly review student records including, but not limited to, prior IEPs, evaluations, achievement data, discipline, and attendance to assist with development of IEPs, choose evaluation tools, and assist with manifestation determination reviews
- Serve as the Special Education Director Designee for IEP meetings when requested
- Enter all academic assessment, achievement, progress monitoring data, evaluation reports, behavior plans, and other relevant information into the school’s electronic IEP/504 system as appropriate

KNOWLEDGE, SKILLS & ABILITIES

- Familiarity with Federal, State and CSI guidelines for special education and 504
- Expertise with a wide range of standardized and informal assessment procedures including progress monitoring tools
- Expertise with research-based instructional programs and strategies in the areas of literacy and math
- Knowledge of research-based academic and behavioral interventions
- Ability to effectively communicate effectively in oral and written form
- Ability to work effectively and cooperatively with team members

PHYSICAL DEMANDS

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions. While performing the duties of this job, the employee is regularly required to talk or hear. The employee is frequently required to stand, walk; climb stairs, sit; use hands for fine manipulation, handle or feel and reach with hands and arms using a keyboard and video display
terminal. The employee is occasionally required to stoop, kneel, crouch or crawl. The employee may be asked to intervene with students with behavioral challenges. Specific vision abilities required by this job include close vision.

WORK ENVIRONMENT
The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions. The work environment is a school setting. The noise level in the work environment is usually moderate.

NOTE
This is not necessarily an exhaustive or all-inclusive list of responsibilities, skills, duties, requirements, efforts, functions or working conditions associated with the job. This job description is not a contract of employment or a promise or guarantee of any specific terms or conditions of employment. The school may add to, modify or delete any aspect of this job (or the position itself) at any time as it deems advisable.

JOB SUMMARY

Using their unique expertise in movement and function, PTs ensure a free and appropriate education for students with disabilities to prepare them for further education, employment, and independent living. The school-based PT promotes motor development and the student’s participation in everyday routines and activities that are a part of his or her program. The PT designs and performs therapeutic interventions, including compensation, remediation and prevention strategies and adaptations, focusing on functional mobility and safe, efficient access and participation in educational activities and routines in natural learning environments.

EXPERIENCE
• Some experience delivering physical therapy services within a school setting is preferred

EDUCATION AND LICENSURE
• Bachelor’s degree or higher from an accepted institution of higher education
• Holds a valid physical therapist license issued by the Colorado Department of Regulatory Agencies (DORA)
• Holds a CDE-issued Special Services License as a Physical Therapist

ESSENTIAL DUTIES AND ROLE-SPECIFIC RESPONSIBILITIES
Essential duties of this position include the following. Employees in this position perform some or all of the following tasks. Other duties may be assigned.
• Provide direct individual and group therapy services to students with physical therapy needs
• Develop and implement IEPs and 504 plans for students with functional mobility deficits
• Assess, screen, and evaluate students and effectively share results with parents and educational staff, and participate in eligibility determinations according to Charter School Institute, APTA, State, and Federal regulations and guidelines
• Collaboratively with students’ IEP teams, examine and evaluate eligible students’ strengths and needs to establish their ability to participate in meaningful school activities and routines with or without assistance
• Maintain ongoing assessment to verify progress toward meeting IEP goals
• Educate and consult with school personnel and families to promote inclusion of students within the educational setting by developing, demonstrating, training, and monitoring the effectiveness of strategies and intervention activities, and subsequently using gathered data to make program modification decisions. This includes the use of assistive technology for access and participation in the general education curriculum.
• Participate in the school’s MTSS/RtI meetings to design, implement, and monitor student response to research-based interventions for targeted functional mobility deficits
• Participates in the evaluation and selection of accommodations and adaptive equipment to ensure reasonable access to the general education environment for students to with functional mobility deficits
• Direct and supervise the work and service delivery of a physical therapist assistant when appropriate
ADDITIONAL RESPONSIBILITIES

- Complete assessments, evaluation reports, and progress reports within expected timelines
- Schedule direct student services according with regard to the needs of students, school, and faculty
- Maintain service logs and progress notes for all students receiving physical therapy interventions
- Observe students in classroom and unstructured settings as needed to conduct evaluations, monitor student interventions and to provide teacher consultation
- Enter all physical therapy assessment and progress monitoring data, evaluation reports, and other relevant information into the school’s electronic IEP/504 system as appropriate

KNOWLEDGE, SKILLS & ABILITIES

- Familiarity with Federal, State and CSI guidelines for special education
- Expertise with a wide range of standardized and informal assessment procedures to evaluate fine motor, sensory motor, visual motor, visual perception and self-care deficits
- Knowledge of research-based occupational therapy interventions
- Ability to effectively plan for, and efficiently deliver, all physical therapy services as required
- Ability to effectively communicate effectively in oral and written form
- Ability to work effectively and cooperatively with team members
- Ability to use a variety of approaches and materials to address IEP goals that are compatible with students’ ages, interests, and abilities

Employment Experience in Education - Years of Prior Pre/K-12

________ Number of years teaching/working experience in Colorado
________ Number of years teaching experience Out-of-State
________ Total years of experience working in schools in Colorado
________ Total years of experience working in schools Out-Of-State

Passed Elementary or Early Childhood Core Content Test (only needed for elementary teachers): Y or N (circle one)

The following information is required for teachers only. For each assignment circle all grade levels that apply. If multiple assignments, briefly describe on line to right and indicate applicable grades. For each assignment circle all grade levels that apply:

1st Assignment: IN PK K 1 2 3 4 5 6 7 8 9 10 11 12 PG

2nd Assignment: IN PK K 1 2 3 4 5 6 7 8 9 10 11 12 PG

3rd Assignment: IN PK K 1 2 3 4 5 6 7 8 9 10 11 12 PG

4th Assignment: IN PK K 1 2 3 4 5 6 7 8 9 10 11 12 PG

Are you tenured (more than 3 years at current location)? Y or N
Vacant Personnel Action Form

CSI schools must report to the Institute its hiring plan for all special education teachers and related service providers including but not limited to school nurses, psychologists, speech therapists, occupational therapists who will be employed for the following year. No later than the first day of the opening of school, all special education teachers and related providers must be hired, appropriately qualified, and available to serve the identified needs of the students.

Schools that do not have special education staff employed or on record at the start of school or have resignations that occur during the year must immediately notify the Charter School Institute Director of Special Education and submit an action plan (see below) within one week. The plan must include specific details of intent to hire along with an interim plan to include any remediation efforts such as compensatory services to serve both the systemic needs of the school and special education students.

Name of School:

Date Vacancy Occurred: Anticipated Length of Vacancy:

Description of Reason for Vacancy:

Interim Plan: (provide details on how the school will be providing interim services to impacted students/program)
