

For 22-23, CDE is using the same 21-22 memo on instructions for schools/districts to follow when processing state FEDS forms. However, there is a new income eligibility table that CSI has inserted into the memo below along with a direct link to the new table on the CDE website.

**COLORADO**  
Department of Education

TO: School Business Officials, Pupil Count Coordinators, and Food Service Directors

FROM: Kate Bartlett, Executive Director of School District Operations

DATE: June 1, 2021

SUBJECT: Family Economic Data Survey – 2021-2022 School Year

---

The U.S. Department of Agriculture (USDA) has issued a policy prohibiting the use of the *Application for Free and Reduced-Price Meals* for any other programs in schools that do not participate in the federal child nutrition programs. Because there are other programs that link funding to free or reduced-price meal eligibility, including additional state at-risk funding and potentially local waivers of school fees, the Colorado Department of Education has developed a *Family Economic Data Survey* form as an alternative data collection instrument for non-participating schools.

The *Family Economic Data Survey* form is attached to this letter, along with family-friendly instructions which explain how to complete the form and outline the purpose of the form. Additional information on the use of these two forms as it pertains to at-risk funding and child nutrition programs can be found in the [At-Risk and Child Nutrition Program Documentation Matrix](#).

State statute (Section 22-54-112(4), C.R.S.) requires every school to include the federal *Application for Free and Reduced-Price Meals* or the state *Family Economic Data Survey* form in its registration materials. The materials shall include an explanation that these documents will be used to determine whether the school is eligible for at-risk funding on behalf of the pupil and, by filling out the form, the parent is ensuring the district or school will receive the at-risk funding to which it is entitled, based on the population of at-risk pupils served by the district.

The district's food service fund cannot be used for any processing or maintenance of documentation not associated with eligibility for the child nutrition programs, as it is an unallowable cost. This includes collection, processing, and maintenance of the *Family Economic Data Survey* forms. Other district resources must be used. If the district wishes to have food service personnel process the surveys, the food service fund must be reimbursed for the cost of this processing.

Districts are responsible for ensuring that the data collection complies with all applicable state and federal confidentiality rules. Questions regarding the documentation to evidence at-risk eligibility for School Finance purposes and CDE audits should be directed to Rebecca McRee at (303) 866-6805 or [mcree\\_r@cde.state.co.us](mailto:mcree_r@cde.state.co.us). Questions regarding the Community Eligibility Provision (CEP) or Provision 2 should be directed to Rachael Burnham (303) 866-6450 or [burnham\\_r@cde.state.co.us](mailto:burnham_r@cde.state.co.us).

Enclosures: District Determining Official Processing Instructions

**2021-2022 FAMILY ECONOMIC DATA SURVEY  
DETERMINING OFFICIAL PROCESSING INSTRUCTIONS**

The procedures for processing the *Family Economic Data Survey* form are similar to those for *Application for Free and Reduced-Price Meals*, and utilize the same eligibility criteria. It is important to note that while similar, this survey is not a substitute for an official meal benefit application, and families should not be led to believe that completion of the form will result in meal benefits for their child. If this form is used to document eligibility for state or federal program funding, it will be subject to audit by CDE and other program officials. Failure to process and document eligibility correctly may result in an audit exception and a subsequent recovery of funds.

The district should consider the following when processing applications:

- Student information must be accurate and can be linked to a child enrolled at a particular school.
- The application form must be completed correctly if a student is to be considered eligible for free meals/at-risk funding.
- The signature of the eligibility-determining official must be on all applications, including applications that have been denied.
- All *SNAP* case numbers in Colorado begin with '1B' and are followed by 5 alphanumeric characters.
- All Food Distribution Program on Indian Reservations (*FDPIR*) case numbers are 9 numbers long and contain no letters.
- The following table outlines the income threshold consistent with free lunch eligibility for the **2022-2023** school year: [Direct link to the 22-23 is at http://www.cde.state.co.us/nutrition/22-23ieg](http://www.cde.state.co.us/nutrition/22-23ieg)

The **conversion factors** for computing family income are:

- If there is only one source of income, or if all sources received are in the same frequency (example, monthly income), no conversion is required.
- If there are multiple income sources with more than one frequency, the determining official must annualize all income by multiplying:
  - Weekly income by 52;
  - Bi-weekly income (received every two weeks) by 26;
  - Semi-monthly income (received twice a month) by 24; and
  - Monthly income by 12.
- The district's food service fund cannot be used for any processing or maintenance of documentation not associated with eligibility for the child nutrition programs, as it is an unallowable cost. Other district resources must be used. If the district wishes to have food service personnel process the surveys, the food service fund must be reimbursed for the cost of this processing.
