Data Privacy and Security

As a reminder, local education agencies must use secure means when sending Personally Identifiable Information (PII) to CDE. CDE strongly recommends that districts use a secure method if transferring PII between districts, schools, or with other parties. For example, an encrypted email, a secure file sharing tool like Syncplicity, or including the PII in a password protected document.

For more information, please visit the Data Privacy and Security website at <http://www.cde.state.co.us/dataprivacyandsecurity> or contact CDE’s Data Privacy Office at dataprivacy@cde.state.co.us

Introduction and Overview

The purpose of the 2022 edition of the At-Risk Count Audit Resource Guide (“Guide”) is to provide helpful information to assist districts in preparing for their at-risk count audit. With the emergence of new technological capabilities, it is recommended whenever possible that districts retain their audit documentation in electronic format.

While this Guide has been developed to conform to state statute and the Code of Colorado Regulations (Administrative Rules), this document is not meant to be comprehensive and is not intended to replace state statute or administrative rules.

All references to “district” or “school district” includes the Charter School Institute (CSI), charter schools, charter school collaboratives, charter school networks, and BOCES. Each organization is encouraged to review all relevant sections of the Guide, state statute, and administrative rules.

Beginning with the 2021-2022 school year, in addition to students who qualify for free lunch, students who qualify for reduced-price lunch are included in the at-risk count.

Throughout this document, the ► symbol has been used to denote sections where language has been altered or clarified.

Data Collection and Audit Process

Each year, all public school districts across the state of Colorado and the Charter School Institute participate in the Student October Count data submission to the Colorado Department of Education (CDE). The purpose of this data submission is to obtain student-level data required by state statute, including information regarding students' funding and lunch eligibility status (as outlined in the Public School Finance Act of 1994, as amended). CDE collects this data through the Data Pipeline, with the Data Services Office of CDE overseeing the collection.

The Student October Count is based on a one-day membership count in which districts are asked to report all students who are actively enrolled and attending classes through their district on that date (the "pupil enrollment count date"). While the submission should only include those students who meet the membership requirements as of the pupil enrollment count date, the actual submission process begins in September and closes at the end of November. (For further information regarding the actual data submission process, please visit http://www.cde.state.co.us/datapipeline/snap_studentoctober.)

This data not only determines per pupil funding, but also at-risk funding. While several factors are taken into account when determining a district's at-risk funding, the most significant consideration is the total number of funded students reported as free or reduced-price lunch eligible. For every student included in a district's Student October Count data submission, the district must report the student's lunch eligibility status. The applicable codes are as follows:

- 00 = Not Eligible
- 01 = Free Lunch Eligible
- 02 = Reduced Lunch Eligible

In an effort to ensure accurate reporting of those data fields associated with per pupil and at-risk funding, the School Auditing Office conducts compliance audits of each district's Student October Count data. When conducting the at-risk portion of the compliance audit, a random sample of reported free and reduced-price lunch eligible students is selected for eligibility confirmation.

Districts must retain all required documentation until audited by CDE or until five years from the certification due date (November 10), whichever comes first. Special provision schools (CEP and Provision 2) may need to retain documentation for up to nine years, because documentation evidencing free or reduced-price lunch eligibility collected during the first year of participation may be used throughout the four-year cycle for Student October Count reporting purposes. (This is true as long as the special provision students continue to be reported at a special provision school.)

The calculation for at-risk funding is based on the number of free and reduced-price lunch eligible students in grades K-12; however, districts are encouraged to accurately report the free and reduced-price lunch status of preschool students as well. In the event a district uses the alternative preschool count date (11/1), documentation for preschool students only should be dated between July 1 the preschool alternative count date.

Districts should be prepared to provide all audit documentation in electronic format and to provide a copy of any source documents at the time of the audit. In most cases, districts should be able to generate and save required reports electronically from their nutrition systems or, if needed, scan hard copy documents and save them in an electronic format. **At no time should any documentation containing Personally Identifiable Information (PII) be emailed to CDE.**

Pupil Enrollment Count Date

The pupil enrollment count date is October 1 of each year, unless that date falls on a Saturday, Sunday, or major religious holiday. If the pupil enrollment count date falls on a Saturday, Sunday, or major religious holiday, the pupil enrollment count date will be the following school day.

The determination of the pupil enrollment count date shall not be affected by a district's decision to not have school on the pupil enrollment count date.

2022 Pupil Enrollment Count Date: Monday, October 3, 2022

All current-year documentation evidencing free and reduced-price lunch eligibility must be received on or between July 1 and the pupil enrollment count date in order for the district to report a student as free or reduced-price lunch eligible in the Student October Count data submission.

In the event a district or school is approved for an alternative count date, all documentation evidencing free and reduced-price lunch eligibility (in this instance) should be received between July 1 and the alternative pupil enrollment count date for the current school year.

Throughout this Guide, in the event a district or school has been granted an alternative count date, said date should be used wherever "pupil enrollment count date" is referenced.

Audit Documentation Requirements

For the purpose of the at-risk audit, districts must be prepared to provide documentation to support any funded students' free or reduced-price lunch eligibility, as reported in the Student October Count data submission. Acceptable documentation to support a student's free or reduced-price lunch eligibility includes:

- Direct Certification List
 - SNAP (Supplemental Nutrition Assistance Program)
 - TANF (Temporary Assistance for Needy Families)
 - Migrant students
- Applications for Free and Reduced-Price School Meals
- Family Economic Data Survey (FEDS) forms
- Categorical Eligibility determination lists (such as district-created migrant, homeless, Head Start, runaway, and/or foster child lists)

All documentation submitted to the School Auditing Office during the at-risk lunch count audit will be evaluated based on criteria outlined in the United States Department of Agriculture (USDA) [Eligibility Manual for School Meals](#). As a reminder (and as outlined in the Rules for the Administration of the Public School Finance Act of 1994), all current-year documentation evidencing free or reduced-price lunch eligibility must be dated on or between July 1 and the pupil enrollment count date for the year being evaluated, unless the use of the [Carryover Provision](#) is allowable and appropriate.

Carryover Provision

As described in the USDA's Eligibility Manual for School Meals, an individual student's eligibility from the previous school year (before July 1) carries over for up to 30 school days into the new school year, or until a new eligibility determination is made, whichever comes first. Therefore, if the pupil enrollment count date falls within the first 30 school days of the current year, the district may utilize documentation from the prior school year ("carryover documentation") to evidence a student's lunch eligibility status. Carryover of the previous year's lunch eligibility status must be evidenced with adequate audit documentation (as outlined in this Guide). ***Because the new eligibility determination supersedes the carryover eligibility, documentation from the prior year can only be used in the absence of any current-year documentation.***

► For the 2022-2023 school year: per a USDA waiver, districts that operated under the Seamless Summer Option during 2021-2022 and do not have a current year eligibility determination may use eligibility determinations from 2020-2021 or 2019-2020 during the 30-day carryover period only.

In cases where students transfer between districts on or before the pupil enrollment count date during the current school year, the USDA does allow for the transfer of lunch eligibility status from one district to another. In such cases, if the receiving district is able to include the student in the Student October Count data submission, the district can report the student's lunch eligibility status from the sending district if it has documentation demonstrating the student's eligibility from the sending district. In the absence of such documentation, the receiving district must obtain new or updated documentation evidencing the student's lunch eligibility.

Variance Waiver

In the event a district is unable to use prior-year carryover documentation to evidence free or reduced-price lunch eligibility because the pupil enrollment count date does not fall within the first 30 days of school, the district may request a variance waiver from CDE to extend the 30 school day requirement (only as it relates to the at-risk count). In the absence of any current-year documentation evidencing a student's lunch eligibility status, this waiver will allow the district to use prior year documentation to evidence a student's lunch eligibility status. This variance waiver only pertains to lunch eligibility status reporting in the Student October data submission and will not impact the Carryover Provision as it relates to the child nutrition program.

All waiver requests submitted for consideration should outline the reason for the waiver and must be addressed to, and received by the Chief Operating Officer, Jennifer Okes (okes_j@cde.state.co.us), no later than September 15.

Extended Eligibility

Free lunch eligibility may be extended to students who are not included or listed on the SNAP/TANF Direct Certification list for a given household, but who reside in that household. In such cases, eligibility can only be extended as a result of SNAP or TANF benefits, and not in cases of migrant or foster student status. Students with extended eligibility who are identified on or before the pupil enrollment count date for the current school year may be reported as free lunch eligible in the Student October Count data submission if the district notes the following:

- The date extended eligibility was granted
- The initials or name of the district staff member who granted the extended eligibility
- The name of the household member who appears on the SNAP/TANF Direct Certification list

-
- A copy of the SNAP/TANF Direct Certification list (and/or list date)
 - Basis of extension (same household address, application, or “Extended Eligibility to Additional Household Members” letter)

As allowed by CDE’s School Nutrition Unit, this information may be documented in one of the following ways:

- In the district’s nutrition services system and or student information system using notes, comments, etc.
- Handwritten on a printed SNAP/TANF Direct Certification list
- On a separate document (typically an Excel spreadsheet) that is maintained by the district nutrition services department that contains all applicable information as outlined above
- An “Extended Eligibility to Additional Household Members” letter

At-Risk Count Stakeholders

Districts are strongly encouraged to include in the data submission and audit process district staff who may be involved in any portion of the at-risk data collection. Specifically, districts should include the pupil count coordinator/data respondent, nutrition services, homeless/migrant/Head Start/foster coordinators, business officials, and information technology staff.

- The pupil count coordinator/data respondent ensures the overall data is included in the final Student October Count data submission.
- Nutrition services ensures the accurate determination of lunch status and that the final counts in the student information system match the counts in the nutrition point-of-sale system.
- The homeless/migrant/Head Start/foster coordinator(s) work with nutrition services to ensure free lunch status for identified students.
- The business official needs to be aware of any changes in the free and reduced-price lunch counts, which directly impact the district’s funding.
- Information technology staff ensure the proper data link between the point-of-sale system and the student information system through to Data Pipeline.

Income Eligibility Guidelines 2022-2023

Household Size	Free Guidelines					Reduced-Price Guidelines				
	Yearly	Monthly	2x/Month	Every Other Week	Weekly	Yearly	Monthly	2x/Month	Every Other Week	Weekly
1	\$17,667	\$1,473	\$737	\$680	\$340	\$25,142	\$2,096	\$1,048	\$967	\$484
2	\$23,803	\$1,984	\$992	\$916	\$458	\$33,874	\$2,823	\$1,412	\$1,303	\$652
3	\$29,939	\$2,495	\$1,248	\$1,152	\$576	\$42,606	\$3,551	\$1,776	\$1,639	\$820
4	\$36,075	\$3,007	\$1,504	\$1,388	\$694	\$51,338	\$4,279	\$2,140	\$1,975	\$988
5	\$42,211	\$3,518	\$1,759	\$1,624	\$812	\$60,070	\$5,006	\$2,503	\$2,311	\$1,156
6	\$48,347	\$4,029	\$2,015	\$1,860	\$930	\$68,802	\$5,734	\$2,867	\$2,647	\$1,324

For each additional family member add	\$6,136	\$512	\$256	\$236	\$118	\$8,732	\$728	\$364	\$336	\$168
Error-Prone Thresholds	\$1,200	\$100	\$50	\$44	\$24	\$1,200	\$100	\$50	\$44	\$24

SNAP/TANF and Migrant Direct Certification Lists

Any student who appears on a district SNAP/TANF and Migrant Direct Certification list, processed on or between July 1 and the pupil enrollment count date for the current school year, may be reported as free lunch eligible in the Student October Count data submission.

In order to ensure inclusion of all possible free lunch eligible students in the at-risk count and maximize at-risk funding, it is recommended that the district's nutrition services unit run Direct Certification uploads monthly after each new file is made available by the School Nutrition Unit.

Additionally, districts are encouraged to run a Direct Certification upload in July, August, September, and on the pupil enrollment count date. Any upload conducted for Student October Count purposes (on or before the pupil enrollment count date) is in addition to the October upload required by CDE's School Nutrition Unit to support the child nutrition programs.

Funding and Audit Documentation Requirements

If any student is identified as free lunch eligible in the Student October Count data submission as evidenced by a SNAP/TANF and Migrant Direct Certification list, the district must retain all applicable documentation until after the completion of the at-risk count audit for the given school year.

Documentation includes, but is not limited to:

- SNAP/TANF and Migrant Direct Certification lists generated on or between July 1 and the pupil enrollment count date for the current school year
- Documentation to support extended eligibility based on a SNAP/TANF Direct Certification list (with the accompanying SNAP/TANF Direct Certification list, if applicable)
- Documentation evidencing Carryover Provision eligibility (as well as the carryover documentation from the prior school year*, if applicable)
 - District calendar showing the pupil enrollment count date fell within the first 30 school days for the current school year, OR
 - Letter from CDE stating that the district's request for a variance waiver to the Carryover Provision was granted

*For the 2022-2023 school year: per a USDA waiver, districts that operated under the Seamless Summer Option during 2021-2022 and do not have a current year eligibility determination may use eligibility determinations from 2020-2021 or 2019-2020 during the 30-day carryover period only.

Application for Free and Reduced-Price School Meals

If a student is identified as free or reduced-price lunch eligible through the completion of an Application for Free and Reduced-Price School Meals, the student may be reported as such in the district's Student October Count data submission. The district must ensure that the application is filled out correctly and completely, and that it is accurately processed by district staff.

During the at-risk count audit, the School Auditing Office will review applications for all applicable students included in the at-risk count sample to ensure, at a minimum, the following:

- Each application is for the applicable school year
- All students are included on the application and listed by first and last name
- Household income is stated (if applicable)
- The application is signed by an adult member of the household
- The date the application was received by the district (on or between July 1 and the pupil enrollment count date)

If a school or district is accepting electronic applications, the information above must be personally entered by the signing household member or with the household member present; school or district staff are not permitted to sign applications on behalf of family members.

In the event an application indicates a student is a foster child the student is automatically eligible for free lunch and no further verification is required. Students who are identified as homeless, migrant, participating in Head Start, or runaway on an application are eligible for free lunch; however, prior to being approved for free school meals, the above statuses must be confirmed by a school district liaison. Additionally, if the application states that the household is receiving SNAP, TANF, or FDPIR (Food Distribution Program on Indian Reservations) benefits, and an appropriate case number for any of the above is included, all students listed on the application may be reported as free lunch eligible. In any of these cases, the application must be signed and dated as described above in order to avoid an at-risk count audit exception.

Appropriate Case Number Formats:

- SNAP/TANF: These case numbers are 7 alphanumeric characters that start with "1B"
- FDPIR: This case number is a 9-digit numeric number

[CRS 22-54-112\(4\)\(a\)](#) requires every **participating** site or school to include the federal Application for Free and Reduced-Price Meals (or the state's Family Economic Data Survey form, as appropriate) in its registration materials. The materials shall include an explanation that these documents will be used to determine whether the school is eligible for at-risk funding on behalf of the pupil, and by filling out the form, the parent is ensuring the district or school will receive the at-risk funding to which it is entitled.

Funding and Audit Documentation Requirements

If any student is identified as free or reduced-price lunch eligible in the Student October Count data submission as evidenced by an Application for Free and Reduced-Price School Meals, the district must retain all applicable documentation until after the completion of the at-risk count audit for the given school year.

Documentation includes, but is not limited to:

- Applications for Free and Reduced-Price School Meals received on or between July 1 and the pupil enrollment count date for the current school year
- Documentation evidencing Carryover Provision eligibility (as well as the applicable carryover documentation from the prior school year*, if applicable)
 - District calendar showing the pupil enrollment count date fell within the first 30 school days for the current school year, OR
 - Letter from CDE stating that the district's request for a variance waiver to the Carryover Provision was granted

Helpful Hints

- An Audit Documentation Quick Reference can be found at the School Auditing Office [At-Risk website](#).
- Districts should ensure that total household income is being calculated correctly, especially if there are multiple household incomes that occur at varying frequencies.
- Districts should ensure that all members of the household are listed on the application, and that children listed in both the student and household sections be counted only once in the total household size.
- If information provided on an application is inconsistent or incomplete, districts should develop a process for verifying information submitted on the Application.

*For the 2022-2023 school year: per a USDA waiver, districts that operated under the Seamless Summer Option during 2021-2022 and do not have a current year eligibility determination may use eligibility determinations from 2020-2021 or 2019-2020 during the 30-day carryover period only.

Family Economic Data Survey (FEDS) Form

The purpose of the Family Economic Data Survey (FEDS) is to provide an alternative way to collect information needed to determine lunch eligibility status in the event a site is not eligible to distribute the Application for Free and Reduced-Price School Meals.

If a student is identified as free or reduced-price lunch eligible through the completion of a FEDS form, the student may be reported as such in the district's Student October Count data submission. The district must ensure the form is filled out correctly and completely, as well as accurately processed by the district.

Since the intent of the FEDS form is to mirror the Application for Free and Reduced-Price School Meals, these forms will be evaluated using the same criteria. As such, during the at-risk count audit, the School Auditing Office will review FEDS forms for all applicable students included in the at-risk count sample to ensure, at a minimum, the following:

- Each form is for the applicable school year
- All students are included on the form (first and last name)
- Household income is stated (if applicable)
- Signature of an adult member of the household
- The date the form was received by the district (on or between July 1 and the pupil enrollment count date).

If a school or district is accepting electronic documentation, the information above must be personally entered by the signing household member or with the household member present; school or district staff are not permitted to sign applications on behalf of family members.

In the event a form indicates a student is a foster child the student is automatically eligible for free lunch and no further verification is required. Students who are identified as homeless, migrant, participating in Head Start, or runaway on a form are eligible for free lunch; however, prior to being approved for free school meals, the above statuses must be confirmed by a school district liaison. Additionally, if the form states that the household is receiving SNAP, FDPIR, or TANF benefits, and an appropriate case number for any of the above is included, all students listed on the form may be reported as free lunch eligible. In any of these cases, the form must be signed and dated as described above in order to avoid an at-risk lunch count audit exception.

Appropriate Case Number Formats:

- SNAP/TANF: SNAP/TANF: These case numbers are 7 alphanumeric characters that start with "1B"
- FDPIR: This case number is a 9-digit numeric number

[CRS 22-54-112\(4\)\(b\)](#) requires every **non-participating** site or school to include the Family Economic Data Survey form in its registration materials. (Federal law prohibits non-participating schools or sites to distribute Applications for Free and Reduced-Price Meals.) The materials shall include an explanation that these documents will be used to determine whether the school is eligible for at-risk funding on behalf of the pupil, and by filling out the form, the parent is ensuring the district or school will receive the at-risk funding to which it is entitled.

Funding and Audit Documentation Requirements

If any student is identified as free or reduced-price lunch eligible in the Student October Count data submission as evidenced by a FEDS form, the district must retain all applicable documentation until after the completion of the at-risk count audit for the given school year.

Documentation includes, but is not limited to:

- FEDS forms completed or received on or between July 1 and the pupil enrollment count date for the current school year
- Documentation evidencing Carryover Provision eligibility (as well as the applicable carryover documentation from the prior school year*, if applicable)
 - District calendar showing the pupil enrollment count date fell within the first 30 school days for the current school year, OR
 - Letter from CDE stating that the district's request for a variance waiver to the Carryover Provision was granted

Helpful Hints

- In the event a district accepts online FEDS forms, the documentation provided by the district must include all information included on a paper version of the form. The School Auditing Office has provided guidance for schools and districts pertaining to the use of electronic signatures. This guidance can be found at http://www.cde.state.co.us/cdefinance/school_auditing_online_signatures
- The district's food service fund cannot be used for any processing or maintenance of documentation not associated with eligibility for the child nutrition programs, as it is an unallowable cost. This includes collection, processing, and maintenance of the Family Economic Data Survey forms. Other district resources must be used. If the district wishes to have food service personnel process the surveys, the food service fund must be reimbursed for the cost of this processing.
- Districts should ensure that total household income is being calculated correctly, especially if there are multiple household incomes that occur at varying frequencies.
- Districts should ensure that all members of the household are listed on the form, and that children listed in both the student and household sections are counted only once in the total household size.
- If information provided on a FEDS form is inconsistent or incomplete, districts should develop a process for verifying information submitted on the FEDS form.

*For the 2022-2023 school year: per a USDA waiver, districts that operated under the Seamless Summer Option during 2021-2022 and do not have a current year eligibility determination may use eligibility determinations from 2020-2021 or 2019-2020 during the 30-day carryover period only.

Categorical Eligibility Determinations

Students identified with a categorical designation on or between July 1 and the pupil enrollment count date for the current school year should be reported as free lunch eligible in the Student October Count data submission. Such categories include students who are identified as foster children, homeless, migrant, Head Start participant, or runaway. Documentation provided by the district at the time of audit must show that the student with a categorical designation was identified as such on or before the pupil enrollment count date of the current school year.

Foster Children

A student identified as foster (on an Application for Free and Reduced-Price School Meals, the FEDS form, or a foster list/letter confirming foster status from a state agency, local agency, or a court), on or before the pupil enrollment count date, should be reported as free lunch eligible in the Student October Count data submission.

If CDE identifies the student as a foster child during the Student October Count data submission, the district should report the student as free lunch eligible and retain the CDE Data Pipeline Error Report as evidence of foster child status for serving free breakfast and/or lunch to the student.

Migrant Students

A student identified as migrant (on a SNAP/TANF and Migrant Direct Certification list or by a [Regional Migrant Education Program Liaison](#) using guidelines established under Section 107 of the Child Nutrition and WIC Reauthorization Act of 2004) on or before the pupil enrollment count date should be reported as free lunch eligible in the Student October Count data submission.

- Only a Regional Migrant Education Program Liaison may include a student on the Migrant List. For audit purposes, school nutrition system status reports are **not** sufficient documentation of Migrant designation.

Homeless or Runaway Students

A student identified as homeless or runaway (by the district's Homeless Liaison, using guidelines established under the McKinney-Vento Act), and included on the district's Homeless or Runaway list on or before the pupil enrollment count date, should be reported as free lunch eligible in the Student October Count data submission.

- Only a district's Homeless Liaison may include a student on the Homeless or Runaway List. For audit purposes, school nutrition system status reports are **not** sufficient documentation of Homeless or Runaway designation.

Head Start Students

A student should be reported as free lunch eligible in the Student October Count data submission if the student was identified as having been enrolled in any of the following, using eligibility criteria identical to or more stringent than federal Head Start requirements:

- Federally-funded Head Start; or
- Comparable state-funded Head Start or pre-kindergarten program; or
- Indian Tribal Organization-funded Head Start or pre-kindergarten program

To be reported as free-lunch eligible in the Student October Count data submission, students participating in Head Start must have been included on a list from the appropriate school official on or before the pupil enrollment count date.

Funding and Audit Documentation Requirements

If any student is identified as free lunch eligible in the Student October Count data submission based on a categorical designation, the district must retain all applicable documentation until after the completion of the at-risk count audit for the given school year.

- Applications for Free and Reduced-Price School Meals and/or FEDS forms completed or received between July 1 and the pupil enrollment count date for the current school year
- Foster child, migrant, homeless, runaway, or Head Start student lists dated on or before the pupil enrollment count date
 - Because Categorical Eligibility student lists must be maintained by appropriate district or regional personnel (as applicable), nutrition system reports are not considered sufficient documentation of Migrant, Homeless, or Runaway designation for audit purposes. Therefore, district nutrition and/or categorical eligibility liaisons must retain these lists until after the district's at-risk audit has been completed.
- Documentation evidencing Carryover Provision eligibility (as well as the applicable carryover documentation from the prior* school year, if applicable)
 - District calendar showing the pupil enrollment count date fell within the first 30 school days for the current school year OR
 - Letter from CDE stating that the district's request for a variance waiver to the Carryover Provision was granted

Helpful Hints

- In the event there are multiple students listed on an Application for Free and Reduced-Price School Meals or FEDS form, and only some of them are identified as being categorically eligible (e.g. there is one foster child student in a household where there are five total students), the remaining students are only eligible for free or reduced-price lunch if the household income level requirement has been met, and if the Application/FEDS form is completed correctly and dated appropriately.

*For the 2022-2023 school year: per a USDA waiver, districts that operated under the Seamless Summer Option during 2021-2022 and do not have a current year eligibility determination may use eligibility determinations from 2020-2021 or 2019-2020 during the 30-day carryover period only.

Special Assistance Certification and Reimbursement Alternative

Community Eligibility Provision (CEP) and Provision 2

For districts that have schools participating in the Community Eligibility Provision (CEP) or Provision 2 programs, the free and reduced-price lunch status for a student reported in the Student October Count data submission may not match the status in the district's point-of-sale system.

While all students attending these schools are eligible to eat meals for free, the district can only report the student as free or reduced-price lunch eligible ***if it has documentation for the student evidencing free or reduced-price lunch eligibility that is dated any time between, and including, the first year of participation through the pupil enrollment count date of the current Student October Count data submission (usually July 1 of year one through October 1 of the current school year), not to exceed the four-year cycle.***

Once the student is identified as free or reduced-price lunch eligible during this time frame, the student can continue to be reported as free or reduced-price lunch eligible in each subsequent Student October Count data submission through the final year of the cycle.

For at-risk funding purposes, the district must:

- Collect documentation for all students during the first year of participation; and
- Collect, for students who are not identified as free or reduced-price lunch eligible in year one, documentation in each subsequent year through the 4th and final year of the cycle, or until the student is identified as free or reduced-price lunch eligible

In the event a CEP or Provision 2 district or school resets its starting year, all new "year one" documentation must be collected.

Funding and Audit Documentation Requirements

If any student attending a CEP or Provision 2 district/school is identified as free or reduced-price lunch eligible in the Student October Count data submission based on documentation listed below, the district must retain this documentation until after the completion of the at-risk lunch count audit for the given school year.

CEP (year one through the completion of the 4-year cycle)

- SNAP/TANF and Migrant Direct Certification Lists
- FEDS form
- Foster Child, Migrant, Homeless, Runaway, Head Start Lists

Provision 2

- Application for Free and Reduced-Price School Meals (year one only)
- FEDS form (years 2-4 only)
- SNAP/TANF and Migrant Direct Certification Lists
- Foster Child, Migrant, Homeless, Runaway, Head Start Lists

Helpful Hints

- If, during the first year of participation, a CEP or Provision 2 student is not identified as eligible for free or reduced-price lunch on or between July 1 and the pupil enrollment count date, the district should continue to monitor these students to determine if they may be eligible to be reported as free or reduced-price lunch eligible in subsequent Student October Count data submissions during the four-year cycle.
- If students transfer into a participating district or school after the year one Student October Count data submission, the district will need to have documentation evidencing free or reduced-price lunch eligibility for that student in order to submit them as such in subsequent Student October Count data submissions.
- Districts with CEP and Provision 2 schools should ensure that they have a process in place for tracking lunch eligibility status in the Student October Count data submission for students reported at these schools, as this status may differ from the student's actual eligibility status for the National School Lunch and School Breakfast Programs.
- District nutrition service staff should coordinate with the district Pupil Count or Student October Count coordinator to ensure accurate reporting and collection of required audit documentation.
- CEP/Provision 2 districts and schools are encouraged to communicate with parents the value of completing the FEDS form, which may include information about potential benefits to the school or district, such as additional at-risk funding available to the district, etc.
