Equity Dashboard

How do we serve all our students?

CSI uses a data-based screening process to identify potential areas of inequity and provide individualized school supports to address and close those gaps. **This active approach allows us to improve service to all students.**

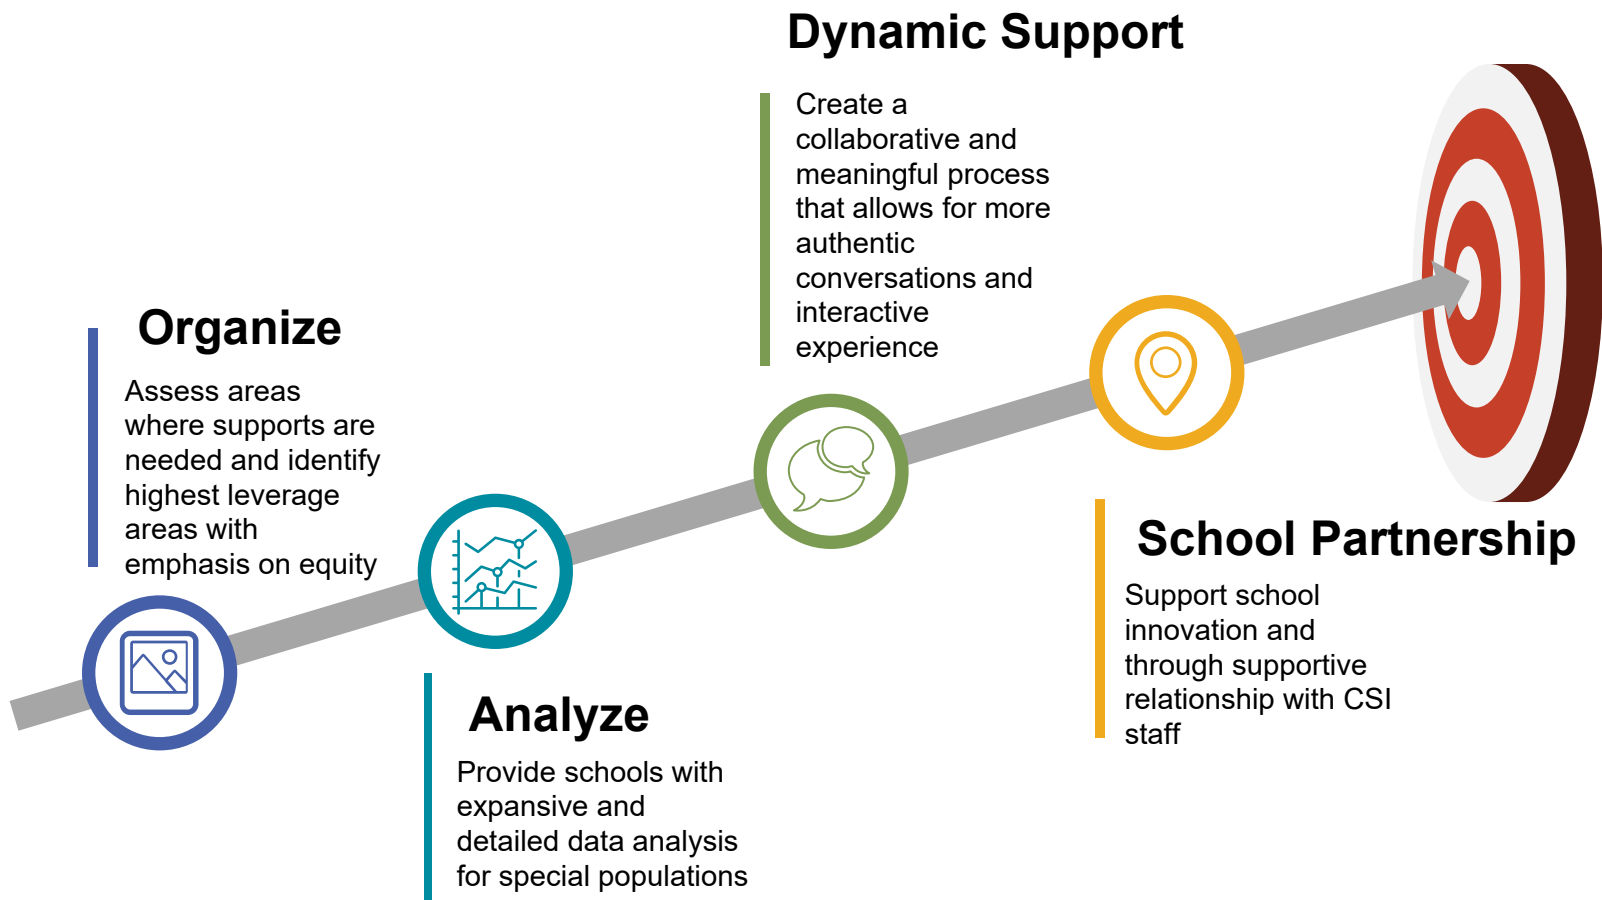

In line with its mission, CSI prioritizes access and equity. Over time, our initiatives have shifted to adapt to school feedback and identified needs.

Equity Goals

How can CSI improve equity & access for all students?

The Equity Dashboard provides a diagnostic to zoom in on what may be going on in a school.

Data is interactive, tailored to the school, and accessible via Syncplicity.

Schools have the autonomy to set their own goals.

Schools can align their equity goals with other processes – like the UIP and CARS.

CSI staff provide the expertise and resources to help schools reach their goals.

CSI staff guide schools through goal setting via action plan (root cause data dig), and continuous engagement with school equity goals.

A decorative horizontal bar at the bottom of the slide, divided into four colored segments: teal, blue, yellow, and red.

Data-informed decision-making

Data-gathering

- An **authorizer** can use the Equity Dashboard to identify enrollment gaps and present this information to schools.
- **Schools** can use the dashboard to identify enrollment gaps on their own.

Goal-setting

- **Schools** can use the data to identify areas for improvement and establish targeted recruitment and retention goals.
- **Authorizers** can support schools in doing this work by creating a structure and system for reflection and goal-setting.

Timeline

November

- Release Equity Dashboard
- Provide training and support

February

- Release updated dashboard with 2021-22 data

Training

- We are happy to provide school-specific training on how to use the Equity Screener.
- Please contact Collin Phillips (collinphillips@csi.state.co.us) to schedule.
