

Get the **FACTS** about the benefits of choosing CSI as the School Food Authority for your charter school!

## **F** Federal funding based on the number of meals served

With the CSI SFA, your school keeps its federal reimbursement for the meals served to your students.

## **A** Autonomy in menu planning

With the CSI SFA, your school can choose which service model it would like to use: Self Operational, Contracting with a Vendor, or Contract with your Local School District.

## **C** Cost Effective

With the CSI SFA, we keep the costs down. CSI charges a small fee of \$.12 per student breakfast, \$0.20 per student lunch, and \$0.07 per snack to help run your Nutrition program. Non CSI schools will be responsible for paying the annual administrative fee for participating in the SFA of \$5,500.

## **T** Titan Nutrition software

With the CSI SFA, parents will have access to our friendly Parent Portal. This portal allows parents to see school menus (including food allergens), manage their child's account, and apply for meal benefits right from the comfort of their home computer or cell phone.

## **S** School Nutrition Experience

With the CSI SFA, school nutrition staff receive the training to help with processing meal applications, completing school applications, processing claims, and understanding the regulations that must be followed to run a compliant food program. Our CSI School Nutrition Program Manager is a Registered Dietitian and School Nutrition Specialist with over 20 years of experience working in the field of nutrition.

For more information about the CSI School Food Authority, please contact CSI School Nutrition Program Manager, Ilene Agustin, at [IleneAgustin@csi.state.co.us](mailto:IleneAgustin@csi.state.co.us).
