CSI clarifications and additions are in green font in this document

Changes from 2023-2024 are highlighted in yellow.

Purpose:

The purpose of the Special Education Participation File is to collect and verify information related to Special Education services on students while they attended in your Administrative Unit.

Important:

If there is not a matching record in the Child File, the record will not be included in the snapshot.

Dependencies:

- Student has been assigned a SASID (if required) and updated in the RITS system. If SASID is not required, student must have a LASID.
- Student's LASID should match the LASID reported by the district in the Student Interchange Demographic file to ensure demographic information is pulled into the snapshots from that file.

Record Expectation:

Report a record for each student who was referred, evaluated, and/or received Special Education services in your Administrative Unit or State Operated Program at any point during the reporting period 7/01/2024 – 6/30/2025. This should include resident students who are eligible for services regardless of where they receive services.

Use Summary (Fields from this file are used in the following CDE Collections which require LEA effort):

[Special Education December Count](#), [Special Education End of Year](#), [Special Education Discipline](#)
